

## Ordering *Swan* Class Plans, from the NMM:

- 1) We give you the new scan references (Jxxxx) as well as the current object reference (ZAZxxxx) for each of the plans (see below).
- 2) If you are able to put these on any new literature (e.g. website) then that would help people to order the plans via our Picture Library. We do not copy the plans anymore in our section. Since they have been scanned, our Picture Library deals with the ordering process.
- 3) The ordering process would then be: e-mail the relevant plans list (with J references) and vessel name/date to our Picture Library: [pictures@rmg.co.uk](mailto:pictures@rmg.co.uk) They would be able to explain the ordering process for plans, costs, payment methods and other requirements to the client.
- 4) The plans are printed by an external company and sent out by them too.

The plans in question are (beware of duplicates between ships).  
The Jxxxx references in red are the scan numbers:

HMS Fly (1776)			
Line	Plan	Scale
